2. Notifications for growers

AgriDigital automatically sends real-time email notifications to growers for the following;

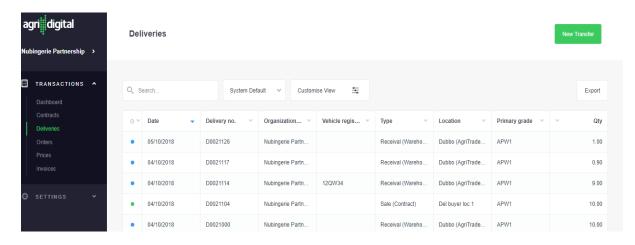

- 1. New contract with a buyer who uses AgriDigital,
- 2. RCTI has been processed by a buyer on AgriDigital,
- 3. **Deliveries** to a site operator using AgriDigital. If a grower has activated their AgriDgitial account they will get **a real-time text message** when a delivery has been received as well.

Notifications will be sent to the grower's email address and mobile number that is associated to the NGR number. If these details are updated with NGR, the site operator must re-sync with NGR via AgriDigital which will import new grower records, as well as update existing details.
